What is GoToMeeting?

GoToMeeting allows you to Present, Demonstrate, Collaborate, Train, and so much more!

- GoToMeeting is a Web conferencing tool that allows you to meet online rather than in a conference room. It's the easiest and most cost-effective way to organize and attend online meetings. It enables others to view any application running on your PC in real time. With the flexibility to meet in person or online, you'll be able to do more and travel less.
 - In other words, GoToMeeting will allow you to meet online with up to 25 others to share information, documents, presentations, etc.

If you can see it on your computer, you can share it!

What is a Webinar?

A Webinar, or "Web seminar," is an online event designed to facilitate communication between a small number of presenters and a large remote audience using the Internet.

Webinars reach audiences more effectively than regular in-person events because there is no need to plan travel or reserve conference space.

GoToWebinar will allow you to meet online with up to 1,000 others to share information, documents, presentations, etc.

Once again, if you can see it on your computer, you can share it!

Using GoToWebinar

- Please send all Webinar request to webinarrequest@idoc.in.gov
- (If you have any questions regarding a webinar, please send them to this address as well.)
- Once your request has been received, one of our Administrators will contact you to set up your webinar.

WEBINAR TRAINING

JMPUT

Computer Based Training offers many benefits to Indiana Department of Correction staff.

CBT allows staff to move through training at his/her own pace. CBT can be utilized in any location that has access to the State's PeopleSoft database; this location may be at a facility or at most computers with access to the Internet.

Currently, the Department is using CBT for portions of the Annual In-Service Training Program and for specialized training opportunities for staff.

Users are required to log onto PeopleSoft using their Username ID and PeopleSoft password. The Department's Annual In-Service Computer Based Training program is offered via the PeopleSoft Enterprise Learning Management (ELM) System. Each module is completed in the order it is presented and must be successfully completed to finalize the CBT portion of Annual In-Service Training. Upon completion, the system will automatically grade each module and provide the staff member with a Certificate of Completion, if desired.

Additional Computer Based Training Modules are being developed to replace, revise or add to current curriculums. Many of these modules will be refresher course material to enhance skill-based training, or are leadership and career development oriented.
